2. Выполнить задания по теме из прикрепленного файла.

Домашнее задание: 1. Read text of module 7a aloud. Make a voice message / file and send it to a teacher.

# Modern gadgets in my life

**We can not imagine our life without television today. It teaches us, educates us and entertains us.**

**TV is a very important thing in our life. We can say that TV is our eyes because TV helps us to know more about the world, about the other counties, about the events that happened in the world.**

**Modern housewife simply does not imagine homework without iron. People have always looked after their clothes, after washing it to look nice and neat. To cope with modern iron is not difficult - so it is easy to use. Simply turn it on and it will work.**

**Modern phones are presented mostly by mobiles. It is almost impossible to find a person nowadays who doesn't have a personal mobile phone. These phones have become highly popular over the last years. They are rather compact, handy and easy to carry around. Mobile phones allow us to make instant calls, send text messages, listen to music, play games, take photos, check an e-mail and else. Thus, they have replaced not only landlines but also personal computers, MP3-players and cameras.**

**The important "domestic helpers" include refrigerators. It helps us to keep food cool in a warm house. Now there are many models of refrigerators, you can pick out the color of this product, specifications, features and size. Adjustment function of temperature, freezing, rapid cooling - these actions will help to cook your favorite meal, and save it.**

**Having a microwave in a modern kitchen –is a usual thing. And the housewife can not imagine her life without a microwave oven. This kitchen appliance has its advantages over the kitchen stove: it takes up little space, microwaves diverse design and lets you choose the microwave, suitable for any decor, and the food is prepared in the microwave a little faster ..**

**Computers have drastically changed everyone's lives.**

**Many people find computers dangerous and time-consuming. On the other hand, computers are very fast and they seldom make mistakes. They save lots of time, and besides all the necessary information can be found on Internet. So, instead of going to the libraries or other institutions, we can simply surf the worldwide web. Another advantage is the instant possibility to send letters, whereas some time ago we had to wait for weeks and months to have them delivered. Moreover, with the help of computers and Internet, shopping has become much easier.**

**In order to have an accurate daily and a stylish haircut, it is not necessary to run in the morning in a hair salon and do packing. Similar results can be achieved at home, using a hair dryer.**

**Almost every family has a washing machine at home. This thing also became ordinary, without which it is impossible to imagine our existence.**

**Now even it is strange to hear an expression such as "I wash" because and we have only to fill it, and we can do other things. The washing machine has become an indispensable helper at home.**

**Vacuums – is one of the most popular consumer devices, available in almost every house.**

**Vacuum is - a device for cleaning dust and dirt from surfaces by suction air flow. The dust and dirt accumulated in the dust container from which they must be removed regularly. The first vacuum cleaners were manufactured in the United States in 1869.**

Good morning! How are you? I hope you are OK! Let's start our lesson.  
Could you remind me what topic did we discuss at the previous lesson?
